

Vireak Ho

WEB DEVELOPER

OBJECTIVE

Dynamic and adaptable Full Stack Developer with expertise in React, Laravel, and Spring Boot. Experienced in developing and maintaining web applications across various tech stacks, seeking opportunities to leverage skills in technologies to contribute to innovative projects and teams.

EXPERIENCE

WEB DEVELOPER @ALLWEB IT COMPANY CO., LTD.

April 2022 – Now

using React microfrontend architecture for frontend, Laravel MVC framework for Full stack, and Spring Boot microservices for specific backend functionalities.

Utilized Laravel MVC framework to build scalable and efficient backend systems, enabling seamless integration with frontend components.

Employed Spring Boot microservices to develop robust and scalable backend services, ensuring efficient resource management and system reliability.

Proactively identified and addressed technical challenges, optimizing application performance and enhancing overall system reliability.

Designed and implemented dynamic and intuitive user interfaces using React, focusing on enhancing user experience and engagement.

Collaborated with teams to define RESTful APIs and integrate frontend and backend systems seamlessly.
